Brand Launch

Brief:

The giant courier companies like TCS and M&P have grown their roots deep down in Pakistan's courier industry. MOVEX needs to dig down its roots deeper. However, MOVEX is not only new in the market but a new player in the industry that needs to build its brand from the ground up. This is where Envision comes in.

Action:

Envision not only achieved this vision by creating a strong digital presence but the most inclusive marketing and public relations campaign along with developing a website that is functional and clearly conveys the message. Targeting niche audiences that helped escalate the sales, and brand positioning & with the rigorous effort of its operational team, notably 'Mr. Shafiq Malik', whose 25+ years of experience came into play, made it look like an overnight success. The 2year+ journey was full of excitement, new learnings & constant challenging goals.
